More shade and less weight with the Fiammastor®

The First Choice for your Motorhome, Caravan and Minivan.
The only awning that can be enhanced
by a complete range of front and side panels.

Trust Fiamma, we invented the case awning for motorhomes and caravans.
 With the Fiammastor® awning you can double the living space of your vehicle in less than one minute. It offers a cool and covered open space outside and lowers temperature inside.
 The Fiammastor® allows you to keep windows and doors open for air circulation during rainy weather. Wet gear can be taken off outside in order to avoid bringing dirt inside the vehicle. Fiamma awnings are the most elegant, userfriendly and trustworthy awnings on the market today.

The exclusive features from Fiamma
The Fiammastor® is built using the latest technology,
in our factory, certified ISO 9001, in Cardano al Campo, Italy

Smooth and silent opening

European Patent 0 694 439
German Utility Model 200 16 742.1

AUTO-LOCK®

Fiamma manufactures the only awning with a silent opening thanks to the TÜV certified Auto-Lock® self-locking winch safety system, with exclusive **Syncro** long life Aluminium mechanical parts: it is a generation ahead than noisy hook mechanisms. The system facilitates easy and quick opening of the awning.

EXTRA-STRONG ARM

Sturdy reinforced articulated arms with **twin cable, diam. 3,5 mm.** They overcome more than 10.000 cycles of opening and closure. They can maintain a fabric tension up to 32Kg. The fixing of the arms with double bolts system, certified **Double Block®**, grants more stability and easy regulation.

DUAL SHOCK-ABSORBER®

Only Fiammastor® has the Dual Shock-Absorber®

The Dual Shock-Absorber® protects both the awning and the vehicle during bad weather*.

* Please follow the instructions carefully

European Patent
0 752 507

PRESTO FIX®

Perfect closing every time

The Fiammastor® is the only awning with a new adjusting system that enables you to gauge the closing of the front bar if, over a period of time, one side should stop closing perfectly.

German Patent 103 00 312.6

Fiamma exclusive features

DUAL SECURITY

The security of Fiammastor® is also guaranteed by the Dual Security® system. It is a special device to indicate the correct closure of the front bar to the case by two small plastic flags inside the side end caps.

European Patent 2 230 476

SECURE LOCK

The telescopic system of the legs with manual locking allows the regulation of the lead bar height. In this way, accidental collapses are avoided.

TOP-QUALITY FULL COLOUR AWNING FABRIC

All Fiammastor fabrics, printed for the whole extension in 5 colours, are hermetically sealed for a complete resistance to water: **there are no seams on the fabric which might weaken the fabric** and allow the water to pass through. Each canopy is carefully checked during the production stage.

SUPPORT ARMS

Double possibility of fixing the legs for a better resistance to the wind.

On the wall: the legs are fixed with Wall Bracket Kit, standard delivered.

To the ground: the legs can be fixed with proper pegs standard delivered.

New awnings in different colours which match the colour of your Motorhome !

FIAMMA F45 TF POLAR WHITE

FIAMMA F45 TF TITANIUM

FIAMMA F65S POLAR WHITE

Polar White	●	●	●	●	●	●	
Titanium		●	●	●	●		●
Deep Black				●			

● Standard ● Optional

All the Fiammastor canopies are sealed for a perfect resistance to water.

All canopies are printed on both sides. The outer layer is hyperprotected to allow complete and easy deep cleaning.

The classic multicoloured canopies without seams

The Fiammastor® canopy fabric guarantees higher resistance to UV rays. It does not fade and is hermetically sealed.

The absence of seams allows hermetic resistance to water and tearing.

It is flame-retardant, can be rewound when damp, is light-resistant, rot-proof, waterproof and washable.

Quickly double your living space with the Fiamma ZIP

German Patent 197 26 712,
German Utility Model 202008002026.3

Exclusive to Fiamma and patented!

Have fun in open air in your own privacy. The zip comes complete with awning and enclosure. The innovative Fiamma ZIP system joins the side panels to the fabric of the awning with two special sturdy YKK zips. The awning is transformed into a completely enclosed room in a few minutes. Standard delivered with: the awning (canopy available in Deluxe Grey or Blue Ocean colour), installation brackets, one front panel with door and two side panels. The 3 windows can be rolled up and are delivered with mosquito net. Also included are Rapid Set aluminium tension poles (p.47), one central tension rafter (p.46), vehicle skirting (p.45), curtains for the three windows and storage bag Mega Bag (p.51).

The only automatic awning with ZIP fasteners complete with front and side panels

The only automatic awning complete with front and side panels

All windows can be rolled up and are delivered with mosquito net.

The window can be closed completely and sealed thanks to the two side zips and the Velcro on the lower part. Curtains, standard delivered, enable you to have complete privacy.

Motorise your awning Motor Kit for Fiamma F45 Ti.

The motorising also allows manual opening and closing operation of the awning

Motor Kit for Fiamma F45 Ti
Motor Kit also allows manual opening and closing operations.

Motor Kit for Fiamma F65
Motor Kit also allows manual opening and closing operations.

Motor Kit 12V

Motorise your awning

Only Fiamma offers you the Motor Kit 12Vdc accessory that can be installed on your awning. The Motor Kit also allows manual opening and closing operation and extends the total length of the awning by only 15 cm. The motors for Awnings F45 Ti Left are only suitable for awnings with winch on the left side.

Control System for Motor Kit and integrated Motor Kit.
"Built in" control panel supplied.

Motorise your awning F65 S

The only awning with integrated motor 12 Vdc.

Motor Kit for Fiamma F65 S

New Fiamma Motor Kit 12 Vdc can be installed on your awning F65 S, without extending the total length of your awning. The tubular motor kit can be easily installed taking out the cap with the manual winch. The winch (A) allows manual emergency opening. Standard delivered with Control System.

F65 S New Awning for new generation

The innovative F65 S is the new generation FIAMMA roof awning which integrates onto the vehicle without overhanging. Thank to its compact and curved dimensions it's elegant and lighter. Completely made of solid aluminium.

More shadow surface.

Available in three versions: Polar white, Titanium or Deep Black coating finish.

Optional: new integrated motorkit 12 Vdc that can be installed inside the roller, without extending the total length of your awning.

Solid end covers in aluminium

Elegant aluminium case available in three colours

Polar White

Titanium

Deep Black

F65 S perfectly integrates with the vehicle design

Elegant, Strong, Integrated

F65 S Ducato

The F65 is the Premium awning ideal for installation on the Ducato Minivan.

It perfectly fits onto the vehicle without overhang.

Model suggested for Fiat Ducato, Citroën Jumper and Peugeot Boxer **before 06/2006**:

F65 290 medium wheel base (3200mm) and

F65 340 long wheel base (3700mm).

After 06/2006, high roof:

F65 320 Short wheel base (3450mm) and F65 370 long wheel base (4035mm).

Installed with no drilling, using the optional Fiat Ducato Adapter (page 31).

F65 S with Blocker

No drilling of the vehicle required

Type of awning:	100% automatic. Secure inside its aluminium case, Polar White, Titanium or Deep Black finish. Roof installation.
Major benefits:	Excellent design, very sturdy, easy to operate and safe. Silent when opening/closing and when travelling. Easy-to-hook winch loop. Maximum shadow surface. Regulation system for the closure of the front bar, security mechanism self locking Auto Lock, Dual security system to indicate the correct closure of the front bar.
Application:	Motorhomes, autocaravans and Camper Vans.
Structure:	In extra strong Alu-Lite. Superlight, external automotive Polar White coating finish or in Titanium or in Deep Black.
Fabric:	Cool and cheerful vinyl canopy. UV Resistant, waterproof and washable, with bright colours on both sides. Colours: Blue Ocean or Deluxe Grey.
Extension:	250 cm (200 cm for the awnings F65 260 and 290).
Lengths:	260 cm, 290 cm, 320 cm, 340 cm, 370 cm, 400 cm.
Standard equip.:	Presto Fix® - Reinforced arms with twin cable - Extra Strong Arms - Dual Shock-Absorber® - Auto-Lock® - Dual Security® - Telescopic handle - Hooks to secure legs to the ground Wall brackets for supporting legs - Tension Rafter L from the F65 400 (page 47).
Optional:	Privacy Room F65 for Fiat Ducato, Citroën Jumper, Peugeot Boxer and Laika Kreos (page 33), Blocker (page 34-35), Motor Kit (page 25). Adapters, fastening brackets (page 31), Crank Handle (page 47).

The best and original roof awning

F65

The F65 is the Fiammastor® which fits onto the vehicle without overhang.
With its modern design this awning adapts easily to the new generation of motorhomes with curved roofs.
The mounting brackets are optional. Smooth and silent opening, finished in a bright polar white enamel paint or in Titanium.
Colour of the canopy: Deluxe Grey or Blue Ocean.
Extra strong structure.

The F65 is stronger because its case box is larger.

The perfect solution for the awning on the roof without overhang

Elegant aluminium case available in two colours

Ideal for Motorhomes with a sturdy bearing structure

The automatic awning with self-supporting arms to be installed on the roof of the motorhome.

The Eagle is a roof awning with self-supporting arms. With its modern design this awning adapts easily to the new generation of motorhomes with curved roofs. Does not require vertical supporting legs. Strong jointed arms that tighten the fabric. Ideal for big motorhomes and for vehicles with rear door. Verify the strength of the fixing points of the brackets. The installation brackets are not standard delivered (see page 31). Fabric colour: Deluxe Grey.

New and improved

The Fiamma Privacy Room is the best on the market because it allows complete aeration on all windows.

New innovative design.

With the Privacy Room you can transform your Fiammastor into a comfortable living area.

The side panels are quickly put together with the exclusive patented Clip System.

The upper part is fastened together with the lower part, the fabric of the awning is then blocked between the lower and upper rail by screwing the knob. No other fixing system is as stable as the Fiamma Clip System. A special sponge is fitted, vertically, on the back part of the side panels and is fixed against the vehicle by an aluminium telescopic pole (included). The front panel is inserted in the front rail of the awning and with the zip it is joined with the side panels.

Standard delivered with: Front panel with window (that can be rolled up and with mosquito net) and independent door that can be moved onto the right-hand or left-hand side. 2 side panels, windows with mosquito net. The windows can be rolled up. Clip System installation system (p.33), Curtains Kit (p.51).

Easy to install: doubles your living space with the new and improved Privacy® Room

All the windows can be opened and come with mosquito screens.

All windows are standard delivered with curtains.

The Kit Privacy O allows the installation of the Privacy® Room on Omnistor 5002 awnings. It is standard delivered with the Privacy Room.

Standard delivered with Clip System bars with interior adjustment.

The door can be placed in the left-hand side.....

....and easily moved on to the right hand side!

Installation kit ◀ for F45 Ti L included

CLIP SYSTEM

Exclusive to FIAMMA

With the new Clip system the side panels of the Privacy are quickly and easily joined with the fabric of the awning.

Just place the clip system in the corner of the casebox and the leg support of the front panel. Then the upper part is fastened together with the lower part. In order to guarantee a perfect seal the fabric of the awning is blocked between the lower and upper rail by screwing the internal knobs. Insert the side panels into the rail of the clip system.

The front panel of the Privacy Room is inserted into the rail of the front of the awning and with the zip it is then joined with the side panel of the Privacy.

The clip system is also delivered with two vertical poles that are fixed between the side walls and the vehicle walls and the side sponges. The new patented system uses sandwich technology and is made of anodized aluminium. It is adaptable for awnings with a maximum extension of 250cm. (when closed the set of tent pegs takes up only 120 cm). The clip system is standard delivered with the Privacy Rooms; it is however possible to buy it separately in order to use it on Privacy Rooms produced after 2005.

The Clip System weights less: easier to install and carry.

Model	Item No.
Clip System	03942-02-

BLOCKER PRO

Front panel equipped with one large full light Crystal window and vinyl extension to the floor. Made of rot-proof vinyl, washable fabric with UV protection. New Blocker Pro and Side W Pro for VW T5 with Fiamma or Omnistor awnings.

Caravanstore
The awning for caravans,
number One in European sales.

**Italian
Design**

The first easy to use, sturdy and lightweight bag awning

The Fiamma Caravanstore® is easy to use and install: it takes only seconds to roll it out completely. Simple and essential, Fiamma Caravanstore offers excellent shelter from sun.

The legs are inside the rollertube and is standard delivered, easy to take out and install as it is articulated and telescopic, so it cannot fall down or be lost. For those reasons the caravanstore is the favourite.

Inside the bag you can find also the improved wall fixing kit. The larger roller can be rolled-up in both ways.

It is enough to undo one screw in order to disassemble the legs and replace the fabric for quick and easy maintenance.

Elegant, nice-looking and really affordable. The only awning for caravans and minivans with tubular rewind for wrinkle-free fabric

Simply
THE BEST

**Original
Version**

How to install the Caravanstore:

Caravanstore

The fabric is perfect and wrinkle-free

It is wrinkle-free even after long storage and in just a few seconds it is just like new, ready to give shade. Thanks to its wide roller the Caravanstore® is easy to unroll and roll up and above all the fabric is wrinkle-free!

The exclusive system allows the roller to roll-up in both ways (photo B).

Caravanstore takes up little space when closed inside its waterproof bag: its bag height is just 14cm.

The original bag awning is produced only by Fiamma!
It is impossible to loose pieces: few pieces, less weight

*1 tension Rafter Caravanstore in anodized aluminium included.

1 tension Rafter Caravanstore and 1 Caravanstore Support Leg in anodized aluminium included. Specify the fabric colour you want in your order by replacing (X) with: **N=Blue Ocean, T=Deluxe Grey.

Type of awning	Compact, lightweight and easy to operate. Horizontal and vertical support assembly slides into awning roller tube.
Major benefits:	Specially designed for caravans, trailers, pop-ups, small campers and mobile homes.
Type of housing:	Housed in a soft bag with handy YKK self-lubricating zipper. No vibration when travelling.
Installation:	Slides easily into the existing awning rail, supplied upon request. Easy to remove.
Fabric:	Cool and cheerful, vinyl fabric with diffused lighting, hard-wearing and waterproof, with bright colours on both sides. Colour: Blue Ocean or Deluxe Grey.
Extension:	225cm (180cm for 190cm awning)
Length:	190 cm, 225 cm, 255 cm, 280 cm, 310 cm, 360 cm, 410 cm and 440 cm.
Standard equip.:	Ground securing hooks. Rafter Caravanstore standard delivered from the 410cm model, Rafter Caravanstore and Caravanstore Support Leg in the 440cm.
Optional:	Blocker (p.42/43) Rafter and Caravanstore Support Leg (p.51).

The roller can be rolled-up in both ways.

The wall rafter support kit is standard delivered and provides safe support for the awning rafter to prevent damage to the vehicle wall.

The Fiamma Caravanstore® is the most compact awning

The awning's rafters and rods fit inside the aluminium roller-tube. No vibration when travelling and no loose parts fall out when opening the bag.

EXCLUSIVE 100% ROUND-FRAME
Sturdy aluminium closed roller of bigger size Caravanstore® is the only awning with the fantastic benefit of having the Round-Frame roller tube in aluminium on which the fabric is wound.

The Caravanstore can be fixed to the ground with pegs (A) or to the wall of the vehicle with wall brackets (B).

Privacy Room CS Light

The new and improved version of the Fiamma Privacy Room CS Light is now lighter in weight and lighter in price. The side walls also have complete ventilation.

The new enclosures Privacy Room CS Light are specially designed for the Fiamma Caravanstore. Standard delivered with the new Easy Clip CS Light aluminium profiles composed of two pieces that ensure secure fastening. Easy installation side panels are provided with big windows that can be opened, equipped with mosquito nets.

The front panel slides in the front rail of the roller tube and thanks to the auto-lubricant zippers it's easy to fasten the lateral panels. Elegant curtains in Ocean or London colour for the front window are optional.

The door can be moved to the left or right-hand side.

**More space with the new Privacy Room CS Light for Caravanstore

FIAMMA W35

Here is the new window awning Fiamma W35.

The W35 is easy to install and to use assuring you of good protection from sun light.

It can be quickly opened pulling the opening belt; the canopy's extension is adjustable.

It rolls up automatically thanks to the spring inside the rollertube.

It is standard delivered with 2 installation adapters that can be fixed on the rail above the vehicles' windows.

Anodized aluminium case.

Canopy made with light filtering material, blocks about 85% of the light.

When closed takes up little space

Opened, protect you from sun light

The essential accessory for your Fiammastor® and Privacy® Room

Complete with bands at the tips to fix the Mat to the ground through pegs (not standard delivered).

Patio Mat is composed by 3 panels, easy to fold, now available also with the optional Patio Bag.

The new Fiamma **PATIO-MAT** is an essential accessory for your Fiammastor and Privacy Room.

Light weight and easy to fold

The fundamental difference of Patio Mat is its manufacturing system, obtained by weaving small polypropylene pipes.

This system allows the air to go through leaving the carpet really light and easy to carry.

Patio Mat is composed of three panels, easy to fold along the central seams.

Easy to clean

Patio Mat is easy to clean by removing the dirt from the surface and washing with water.

It dries in the open air.

It doesn't damage the grass

The particular weaving of the small pipes allows the air to go through allowing the grass to breathe.

Double-Face design

The double face design allows the use of both sides of the Patio-Mat.

UV protection

Patio Mat is UV-ray resistant and maintains its colour and the technical features over time.

Fire retardant

You can use your Patio-Mat peacefully because it is Fire retardant. Complete with bands at the tips to fix it to the pegs in case of wind (pegs not included).

Available in 4 lengths.

Optional: handy bag made of transpiring material, with straps for easy transport.

Item No.	Description	Dimensions	Awning Length	Surface	Weight

98655-724

KIT AWNING HANGERS

Kit composed of 6 hooks to insert in the lead bar profile to hang light objects.
Suitable also for other awning brands with 7 mm slot.

Item No.

98655-743

KIT DOUBLE AWNING

Cover adapter for awnings F45 Ti

On large motorhomes it is possible to install two awnings side by side with winches on the outer ends.
With the new cover adapter and the support brackets in aluminium, it is possible to join the two awnings (one standard, with winch installed on the right hand side, and one awning with winch installed on the left hand side), making them look like one single awning and improving the look of the vehicle.

CARRY-BIKE®

Carry-Bike exclusive features:

Fiamma Carry-Bike with this symbol is approved by TÜV. You can trust the certified quality from the strict German Quality Test Institute.

Fiamma Carry-Bike is standard delivered with 2 rails. Many models have the possibility to add the third and fourth rails in order to carry up to 4 bikes.

Carry-Bike Pro has a solid patented telescopic rail support ZOOM-4-BIKES with a thicker rounded tube and reinforced points in stainless steel and reinforcement inserts in aluminium.

All Carry-Bike Fiamma have the double reinforced bike carrier rail and the safety strap Quick safe. Some models standard mount the new Rail Premium.

Fiamma Carry-Bike has the Bike-Block Pro, fixing kit for bicycles, anti-scratches, safer and easier, for all tubes with diam. ranging from 30 to 80mm.

Some Fiamma Carry-Bikes are equipped with the "Bull Shock Absorber" system for shock and vibration absorption while travelling.

Fiamma Carry-Bike uses first choice anodized aluminium rounded tubes. In order to grant the resistance and the capacity in time, several Fiamma Carry-Bike models use an improved rounded frame.

Fiamma Carry-Bike uses only long life stainless steel screws.

To offset the position of the bikes, most Fiamma Carry-Bikes can install staggered rails. The rails have the mechanical blocking system to avoid the rail moving in case of braking.

Most of the Carry-Bike has safety block for bike rail supports.

Only Fiamma Carry-Bike offers you, standard delivered on the majority of models, the Quick Safe the safety straps in order to block the wheel on the rail. Easy release for immediate opening.

Fiamma Carry-Bike has passed the German GS-TUV tests for the fixing brackets, for this reason it is preferred by many motorhome manufacturers who preinstall the original Fiamma brackets on their vehicles.

New carry-bike of different colours to match the colour of your motorhome (only for the model Pro and Pro C)

Red colour: it is the standard Fiamma carry bike version.

Grey colour: optional version on Fiamma carry bike, available on request. *

Black colour: optional version on Fiamma carry bike, available on request. *

Blue colour: optional version on Fiamma carry bike, available on request. *

These versions are made on special request, to know the exact availability please contact your dealer.

EXCLUSIVE CARRY-BIKE PRO LINE

Fiamma Carry-Bikes are produced at our factory in Cardano al Campo, Italy, using the latest technology

The Carry-Bike Pro is recommended by expert campers

German Patent 44 27 450.5

Patented telescopic rail support

ZOOM 4 BIKES

The Carry-Bike Pro is recommended by industry experts because it is the strongest bike carrier on the market. Its solid telescopic rail support offers the best way to fasten it to the motorcaravan wall.

It is the only one with patented ZOOM 4 BIKES rail support.

To offset the position of the bikes, most Fiamma Carry-Bikes can install staggered rails. The rails have the mechanical blocking system to avoid the rail moving in case of braking.

Exclusive Carry-Bike Pro Line

Patented telescopic rail support.

The only rail support structure with a thicker rounded tube. Rail support structure with reinforced points in stainless steel and reinforcement inserts in aluminium. Exclusive and patented Bull Shock Absorber to guarantee maximum resistance to vibrations.

BULL - SHOCK ABSORBER

New system of shock and vibration absorption while travelling

German Utility Model: 20 2004 008 369.8
German Patent: 198 39 919.7-21
European Patent : 05 011 144.2-2421

UPPER BRACKETS

To be on the safe side!

The Fiamma Carry-Bike has passed the German GS-TUV tests for both the fixing brackets and the carrying structure. These tests are very strict and are continuously updated to comply with current legislation.

For this reason the Fiamma Carry-Bike is preferred by many motor home constructors who preinstall the original Fiamma fixing brackets on their vehicles. Warning: On the market there are copies of Fiamma bike carriers by other manufacturers that sometimes are installed to the original Fiamma fixing brackets. For the security of people who travel Fiamma highly recommends you to verify that only the original Fiamma Carry-Bike with the GS-TUV label is mounted on the preinstalled Fiamma fixing brackets.

New and attractive covers for the upper brackets, standard delivered

CARRY-BIKE® PRO C

The compact "Premium Quality" bike carrier

It is installed under the rear window while still allowing it to open.

It is installed under the rear window while still allowing it to open.

The Carry-Bike Pro C can be installed on all kinds of motorhomes.

It is highly recommended by experts in the industry as the strongest bike carrier on the market.

Delivered with patented ZOOM 4 BIKES rail support that can carry two extra rails. Carries up to 60 Kg.

Supplied with: 2 Rails Quick, Bike-Block Pro 1 and 3, 2 Rack Holder and Security Strip.

CARRY-BIKE® LIFT 77

The only Carry-Bike Lift with security belts that carries up to 4 bikes

This unique bike carrier is the only one on the market that enables the winch system to lower as much as 77cm, thereby enabling the bikes to be loaded easily.

No accidental unhooking thanks to the Extra-Large safety straps which carry up to 60 Kg.

Thanks to its easy-to-operate winch mechanism and crank handle, it lifts and lowers the bicycles conveniently and without effort. It is made of sturdy galvanized aluminium tubes ø 35mm with steel screws.

Wall fixing points with vertical wheelbase from 68 to 108cm.

It's set to carry two bikes but can be adapted for four bikes.

Supplied with: 2 Rail Quick Red, Bike-Block Pro 1 and 3, 2 Rack Holder and Security Strip. With Bull Shock Absorber. TÜV approved.

The unique bike carrier that enables the winch system to lower as much as 77cm

Seitz Midi Heki

Stand-Alone Turbo Kit

Polarity inverter

You can finally install the fan on large size rooflights

Kit to convert the roof-light into fan. Turbo kit 12 Vdc with telescopic and patented hanging system allows the installation on all roof-lights from 40x40cm to 50x70cm **when the vehicle is stationary and the roof light is open.**

Composed by a ventilation system with a 24 cm diameter fan and 2 telescopic hangers adjustable from 36 to 48cm.

Complete with a supply cable for lighter and a 12Vdc power supply cable for the motorhome's electric installation, that allows the roof-light to function as fan and aspirator, thanks to the manual system of supply polarity's reverse. Preset to work with batteries (8 batteries of 1,5 V D, not supplied)

Usable also as table or hanging-fan. Color ivory.

Feeding tension:	12 Vdc
Absorbed power	3 W
Min. electric input:	0,22 Amp.
Max electric input:	0,26 Amp
Max air flow:	5,4 m³/min.
Fan diameter:	240 mm

Turbo-Vent White	03623F01-
Turbo-Vent Crystal	03623F01B
NEW Turbo-Vent White Sandwich	03623F02-

With Thermostat included
POLAR CONTROL®
The only one that allows you to save up to 50% electricity thanks to a new electronic circuit.

Turbo-Vent is silent at high speed and exceptionally silent at the minimum.
Without the old resistance systems, which create a lot of heat and consume a lot of energy.

The Turbo-Vent is a ventilation system made from high quality materials, that are shock and UV-ray-resistant.
It changes and refreshes the air inside your vehicle within seconds thanks to the 12V DC variable speed motor with 10 blades.
It is the only one of its kind with an innovative electronic circuit that allows a rapid, problem-free, change of rotation.

The cover can be opened and closed manually and the central arm provides stability against strong wind even when travelling with the cover open. Supplied with double external mosquito screen to collect leaves and other debris.
The transparent grating permits maximum air circulation and filtering of light. Can be installed on roofs with depths of 3cm to 8.5cm using the optional extension kit.
Colours: outside frame white, inside frame ivory, cover white or crystal.

TURBO-VENT®

With Thermostat included
POLAR CONTROL®

POLAR CONTROL®

The standard delivered Polar Control is the thermostat that regulates the ingoing and outgoing air of the fan according to the inside temperature of the Motorhome. The switch changes the rotation direction of the fan.

Quiet at night thanks to the optimal minimum speed

Better performance and 50% less consumption thanks to the new electronic circuit and the new motor.

New transparent grating allows maximum air flow and maximum protection.

SANDWICH

Turbo-Vent is now available with internal fixing Sandwich System without screws.

Feeding tension:	12 Vcc
Absorbed power	36 W
Min. electric input:	0,3 Amp.
Max electric input:	3 Amp
Max air flow:	35 m³/min.
Fan diameter:	300 mm
Permanent air flow:	80 cm²

TURBO-VENT® P3

Same features as the Turbo-Vent, but without the Polar Control Thermostat

Excellent reviews on quality and price

Turbo-Vent P3 Crystal

Classic and inexpensive line of Turbo-Vent without thermostat.

Same features as the Turbo-Vent. Standard ventilation, without the automatic thermostat Polar Control. New transparent grating allows maximum air flow and passage of light.

Without Thermostat Polar Control but with the switch that changes the rotation direction of the fan

Better performance and 50% less consumption thanks to the new electronic circuit

Extra quiet also at high speed

German Design Model: 402 07 149.2

Rooflight Vent White

Rooflight Vent Crystal

Maximum stability with centre support adjusting arm.

Aerodynamic, thanks to its elegant external profile top.

During high-speed testing noise and vibrations were greatly reduced.

Thanks to the new outside cover and exclusive patented rubber seal, a watertight system guarantees rain streams down without the possibility of it coming in.

TÜV and ABE approved.

Made with high quality UV-ray resistant materials.

Can be installed on roofs with depths of 2.5cm to max 5cm.

For installation on roof with depths of max 8.5 cm, the optional extension kit (Item No. 98683-112) can be used.

The Vent White does not need the roller blind.

The optional Rollo Vent 40x40 can be fitted to the vent Crystal.

Interchangeable with the old Fiamma Roof-lights 40x40 and with rooflight from 36x36cm to 42x42cm thanks to the reinforced frame.

Supplied with permanent air flow ventilation and mosquito screen.

Colours: outside frame white, inside frame ivory, cover white or crystal.

The cover can be easily replaced due to the quick installation hinges

Even more quiet

The only self-priming pump with incorporated filter and anti vibration Silent Plate included.

The intelligent pump that uses half the consumption of others.

The Aqua 8 pumps water vertically over 3m with no priming.

Complete with **Silent Plate** which eliminates vibrations.

The stainless steel filter prevents impurities from entering and is easily cleaned so the pump lasts longer.

An automatic pressure switch starts and stops the pump by opening and closing the valve.

Non-toxic materials are used for all parts of the pump that come into contact with water.

The pump is resistant to limestone deposits and oxidation.

It can run dry without damage.

The pump can operate in any position, but we recommend installation by placing the motor on top and the head below to prevent possible damage caused by leaks. Install on a solid surface to reduce noise and vibrations.

Easy maintenance: all its components are easily replaceable.

Angle and straight connectors for Ø 13mm pipes included.

Standard version with Pressure switch intervention to 1.5 Bar for cumulating Truma boilers.

A20

AQUA 8 can feed several points of distribution and with A20 you can save up to 28% of electricity!

The universal expansion tank saves water and electricity and is suitable for all pressure switch pumps.

Increased performance for half the price.

Ideal addition to AQUA 8, previous models and all other types of pressure switch pumps (for example Shurflo and Flojet).

The new expansion tank eliminates the pulsating operation of pressure switch pumps and supplies a constant flow of water in the required quantity. It extends the life of the pump and boiler and cuts water consumption.

The internal pressurized diaphragm provides a smooth, surge-free flow. The A20 can be dismantled for diaphragm operations.

It is precharged at 0.9 bars (13 psi) but it can be charged with the special valve with a normal compressor so it can be adapted to all pressure switch pumps on the market.
